Technical specifications and safety information label on the left side of the control panel.

Warning label with red and yellow text, likely indicating safety or operational hazards.

Control panel featuring a large monochrome LCD screen displaying a graphical interface with a blue background and green text. The screen shows a bar chart and numerical data, including the value "00151 N00000". To the right of the screen is a numeric keypad with 12 columns and 10 rows of buttons. Below the screen, the brand name "BULL" is visible.

Lower section of the control panel containing various physical controls. It includes two small digital displays, a row of indicator lights (one green, others black), and a grid of small push buttons. Below these are four large, prominent buttons in red, yellow, blue, and white. A rotary selector knob is located on the right side of this section.
